

GREEN MOUNTAIN POWER CORPORATION  
ENERGY STORAGE ACCESS PROGRAM RIDER

AVAILABLE:

Throughout the Company's service territory during periods when Vermont Department of Public Service (the Department) Energy Storage Access Program (ESAP) Grant funds are available and as determined by the Company.

ELIGIBILITY:

Eligibility is limited to Customers who meet all eligibility requirements of the ESAP Grant and choose to enroll in the Company's Energy Storage System Service.

The Company's ESAP Grant Agreement with the Department requires household income of an eligible customer to be at or below 120% of Area Median Income (AMI), and directs the Company to prioritize disadvantaged communities, lowest-income households, and households with critical medical needs who experience frequent outages. Using these criteria, the Company reserves the right to manage program funding, eligibility, and installations to maximize enrollment upon reasonable determination.

For a current AMI table by county sourced from the US Department of Housing and Urban Development (HUD), view the Energy Storage Access Program Rider at [www.greenmountainpower.com/rates](http://www.greenmountainpower.com/rates) or call GMP at (888) 835-4672.

GENERAL:

The definitions, terms, and conditions of service under this Rider shall be according to the Energy Storage System Service Tariff, except as set forth below.

GREEN MOUNTAIN POWER CORPORATION  
ENERGY STORAGE ACCESS PROGRAM RIDER

LEASED EQUIPMENT AND PRICING:

GMP will lease the Equipment identified in Table 1 for the term and pricing listed. Participation requires a signed Lease Agreement. The current lease form that includes all terms and conditions will be provided to Customer prior to selection of this service and installation.

Equipment Description	Pricing/Term	Other Charges
Two (2) Tesla Energy Storage 2 with integrated inverter unit(s) PLUS one (1) Tesla Gateway or Tesla meter collar backup switch -OR- Equivalent as described in lease agreement	Ten years, plus 60-Month renewal option at no monthly or upfront cost; see lease for details	Early Termination Disconnection Fee: \$450.00 Early Termination Equipment Charge: Prorated charge is due if customer fails to surrender unit, based upon age of lease at Termination by Customer or GMP. See Fees Due for Early Termination in Energy Storage System Service Tariff.

*Table 1*

As Lessor, GMP will maintain ownership of the Energy Storage System for the entire term of the lease. The lease includes both the equipment costs, installation costs and eligible non-standard installation costs as determined by the Company.
